PLUS: ● Amazing 500bhp 1JZ-engined S14 ● Cryogenic metal treatments ● Japfest report
● TOM'S Lexus IS350 ● High-performance estates ● 160mph Sentra ● Tractive's 650bhp Impreza

GERMAN EFFICIENCY

One of the best-kept secrets of the car cleaning world is now available from West Yorkshire-based D-Tech Performance (01924 278519 or www.d-techperformance.co.uk). The German-made Sonax range has won numerous magazine product tests in mainland Europe and is closely associated with the McLaren Mercedes F1 team. The product range is immense, catering for every aspect of your car's appearance, and avoids the use of harmful phosphates and acids in all its cleaners. Natural

Camuba wax is the prime ingredient in the polishes, while a useful two-surface feature on something as simple as a sponge makes removing stubborn dirt simple.

The well-priced Sonax range starts from just £2.99.

CORE! THAT'S COOL!

Indeed it is, and it's dual core to boot! New additions to the Mishimoto range of cooling products are these two performance radiators to fit the Honda S2000 (2000-2005) and the Scion tC coupé (2005 onwards). Manufactured from aircraft-quality aluminium, the radiators offer 30% more cooling power than the standard radiators and are designed to fit with OE specifications to make installation straightforward. All Mishimoto radiators have polished upper and lower end tanks and come with a high-pressure Mishimoto radiator cap. They also carry a one year warranty. Part numbers are MMRAD-S2K-00 for the S2000 and MMRAD-TC-05 for the Scion, and retail price is a bargain \$320 (£163). For further details of UK availability, visit www.mishimoto.com or contact them at sales@mishimoto.com

NEW WHEELS

WHEEL 1: Finichi Rimini
SIZES: 7x17" to 10x20"
