THE FUTURE OF FAST.

Strengthen Your Core

All-billet components, single drive hub and carbon discs offer amazing torque capacity and enhanced driveline reliability.

Avoid Meltdowns

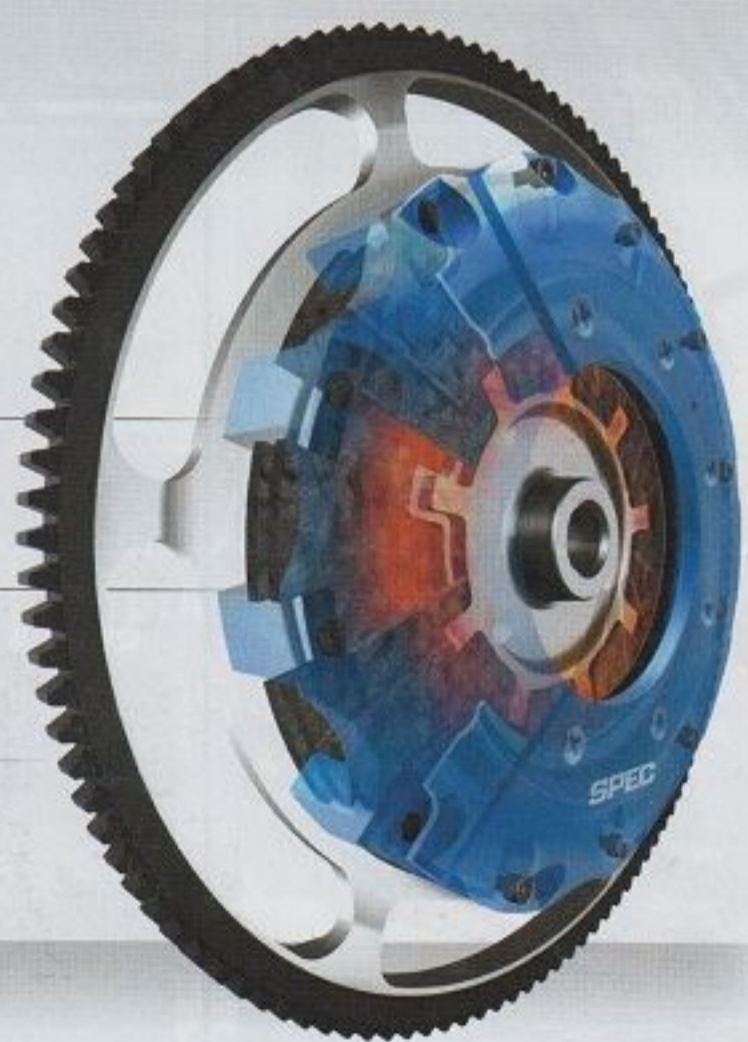

Carbon becomes stronger and wears well at higher temps. There is no fade or overheating. Our carbon is stable to over 5,000 degrees Fahrenheit.

Lighter = Faster

Experience faster shifting, improved rate of rev, increased horsepower and torque. Complete flywheel surface, pressure-plate surface, disc pack and drive hub weigh only 1.4 pounds.

THE SIXTH ELEMENT: Carbon Technology from SPEC

MISHIMOTO

COMPLETE COOLING UPGRADE

Whether you're a daily driver searching for a dependable quality upgrade from your current OEM radiator, or you're a devoted racer who needs a high-performance radiator that will last run after run, Mishimoto has just what you're looking for.

Our superior radiators, fan shrouds, diverter plates, thermostats and silicone hoses will significantly reduce the risk of overheating in any driving situation.
