HOT NEW PRODUCTS

WHO: AEM
WHAT: ECU PATCH/EXTENSION HARNESS
RIDES: MANY — INQUIRE

SOURCE: www.aempower.com
AEM is proud to introduce their new harness extensions for your modification needs. With these harnesses you can cut, splice, tap or re-arrange whatever wiring necessary to fit your aftermarket products without damaging your OE harness. Thank heaven!

WHO: MISHIMOTO
WHAT: ALUMINUM RADIATOR
RIDES: '93-98 SUBARU IMPREZA GCR
SOURCE: www.mishimoto.com

So you've finally sourced your JDM STI Ecu swap and everything's ready to go in the modernization of your GCR... only one problem, you need a new radiator! Well, relax kiddos, Mishimoto is here to save the day with an all aluminum radiator with up to 30% more cooling efficiency than your stock unit. Haha, we said unit.

WHO: DARTON
WHAT: M.I.D. SLEEVE KIT
RIDES: EVO X/4B11

SOURCE: www.dartonspeed.com
The sleeve masters at Darton have a new trick up their sleeves (pun definitely intended). The new M.I.D. kit for the 4B11 engine now allows for boring anywhere from 86mm-90mm while still handling 50+ pounds of boost. For those of you not already familiar with Darton's modular sleeve designs, this kit will allow replacement of single sleeves in the rare case of damage. If you crack one sleeve you simply replace it, instead of having to re-machine the whole block. And if that's not enough to convince you, Darton's offering an installation of the kit with a rapid 15-day turnaround!

WHO: HONDATA
WHAT: FLASK PRO
RIDES: '06+ CIVIC SI
SOURCE: www.hondadata.com

The guys at Hondadata continue to reinvent tuning capabilities for our market. Unlike the creepy guy with the trench coat behind the quickie-mart, this is one "flash pro" you do want in your car. This product connects to your car's OBDII port and allows your Si to be tuned for maximum performance and economy, no matter how your engine is set up.

WHO: RACE ENGINEERING
WHAT: CONNECTING RODS
RIDES: MANY — INQUIRE

SOURCE: www.raceeng.com
Need a beefy billet rod but don't have the funds? Race Engineering is now offering a line of billet connecting rods for all sorts of applications, including less popular engines. They are 100% machined in the good ol' US of A from 4340 steel and come with 2000-ARP hardware. So pickup a set and boost on friends!

WHO: GODSPEED
WHAT: COILOVERS
RIDES: MANY — INQUIRE

SOURCE: www.godspeedperformance.com
Whether you're a driver, a road racer, or a drag guy, Godspeed's got your forkwork needs covered. Not only are these beefy babies beautiful, they're also full height adjustable with 16 levels of damping force adjustment. Also included on certain models are upper pillow mounts with built-in camber correction. Throw in the one-year warranty and you can't go wrong, Godspeed gentlemen!

WHO: SSR
WHAT: 20" PROFESSOR SPL
RIDES: YOURS

SOURCE: www.ssrwheels.com
Arriving this summer you can now outfit your GT-R, Lotus or any other vehicle requiring a 20" wheel with the legendary three-piece Professor SPL. Available in silver, gold, white, black, flat black and super-black coat to ensure a great looking combo with any body color.
